

# JHON ROWEL ABINES

## SOFTWARE DEVELOPER | AI AUTOMATION

Moalboal, Cebu, Philippines | 09056820085 | jraf2003@gmail.com | <https://github.com/JRAF2-0>  
Portfolio: <https://jhon-rowel-portfolio.vercel.app/>

### SUMMARY

Software Developer with experience in web development, automation systems, and embedded applications. Works with React, Node.js, PHP, C#, MySQL, and Supabase. Built full-stack applications, desktop systems, and hardware-based authentication projects, and developed n8n automation workflows integrated with AI tools such as OpenAI and Claude during a 4-month internship at Luna AI Systems.

### TECHNICAL SKILLS

|              |            |          |
|--------------|------------|----------|
| React        | Node.js    | MySQL    |
| HTML         | Express.js | Supabase |
| CSS          | PHP        | C#       |
| Tailwind CSS | n8n        | C++      |

### PROFESSIONAL EXPERIENCE

AI Automation Intern, Luna AI Systems

Feb 2026 – June 2026

- Built n8n-based automation workflows integrating OpenAI, Claude, and external APIs (Slack, Telegram, Gmail, Google Sheets).
- Developed a multi-platform social media scheduling system supporting automated content posting across messaging and social platforms.
- Built a payroll management application using Supabase for data storage and automation of salary computation.

QA Tester Intern, Complete Development (CoDev)

Aug 2025 - Dec 2025

- Performed manual testing on web applications and identified, documented, and tracked software defects.
- Designed and executed test cases for regression and functional testing.
- Collaborated with developers to validate fixes and improve software stability before release.

### EDUCATION

Bachelor Industrial Technology

2025-2026

- Cebu Technological University (Moalboal Campus)
- Major in Computer Technology
  - Thesis on “Integration of Fingerprint and Voice Authentication for an Advanced Motorcycle Security System”

High School Diploma

2016 – 2022

- San Juan High School, Moalboal, Cebu
- General Academic Strand

### ADDITIONAL INFORMATION

- Core Strengths:** Problem Solving, Workflow Automation, API Integration, and Team Collaboration
- Certifications & Learnings:** Self-learning React.js, Express.js, and continuous learning in AI Automation, Workflow Design, and API Integration
- Languages:** English, Filipino and Cebuano
