

JHON ROWEL ABINES

SOFTWARE DEVELOPER | FULL-STACK & AI AUTOMATION

📍 Moalboal, Cebu, Philippines | 📞 09056820085 | ✉️ jhonrowelabines20@gmail.com | 🌐 <https://github.com/JRAF2-0>
Portfolio: <https://jhon-rowel-portfolio.vercel.app/>

SUMMARY

Software Developer with hands-on experience building full-stack web applications, automation workflows, and desktop systems using React, Node.js, PHP, MySQL, Supabase, and C#. Experienced in integrating AI tools such as OpenAI and Claude into business automation systems during internship work at Luna AI Systems. Passionate about scalable systems, workflow automation, and modern web technologies.

TECHNICAL SKILLS

Frontend	Backend	Database & Cloud	Automation & AI Tools	Programming Languages
- React - HTML - CSS - Tailwind CSS - Javascript	- Node.js - Express.js - PHP	- MySQL - Supabase	- n8n - CoDex - Claude Code	- C# - C++ - Python

PROFESSIONAL EXPERIENCE

AI Automation Intern, Luna AI Systems	Feb 2026 – June 2026
- Developed 5+ automation workflows using n8n, OpenAI, Claude, and third-party APIs, reducing repetitive manual processes for internal operations. - Developed a multi-platform social media scheduling system supporting automated content posting across messaging and social platforms. - Built a full-stack payroll management application with automated salary computation, leveraging Supabase for backend services, authentication, and database management.	
QA Tester Intern, Complete Development (CoDev)	Aug 2025 - Dec 2025
- Performed manual testing on web applications and identified, documented, and tracked software defects. - Designed and executed test cases for regression and functional testing. - Collaborated with developers to validate fixes and improve software stability before release.	

FEATURED PROJECT

GradePulse — College Grading Management System (Vibe Coded)
- Developed a PH-based grading management system using React, Supabase, and Tailwind CSS - Implemented automated grade computation, authentication, and responsive dashboard UI - Integrated real-time database, secure authentication and modern UI/UX for efficient data management.
Tech Stack: React.js, Supabase, Taildwind CSS, Typescript

EDUCATION

Bachelor of Industrial Technology Major in Computer Technology	2025-2026
Cebu Technological University (Moalboal Campus)	
Thesis on “Integration of Fingerprint and Voice Authentication for an Advanced Motorcycle Security System”	
High School Diploma	2016 – 2022
San Juan High School, Moalboal, Cebu	
General Academic Strand	

ADDITIONAL INFORMATION

Core Strengths: Problem Solving, Workflow Automation, API Integration, and Team Collaboration Certifications & Learings: Self-learning React.js, Express.js, and continuous learning in AI Automation, Workflow Design, and API Integration Languages: English, Filipino and Cebuano
